

Getting to fit models in R

Alexandre Courtiol

Leibniz Institute of Zoo and Wildlife Research

June 2018

Getting started with R

1 Introduction

2 Linear Models

3 Generalised Linear Models

4 Mixed Models

What is a linear model?

Types of linear models?

A selection of packages fitting linear models in R

Getting started with R

1 Introduction

2 Linear Models

3 Generalised Linear Models

4 Mixed Models

Getting started with R

1 Introduction

2 Linear Models

- **inputs**
- outputs
- tests
- predictions
- assumptions

3 Generalised Linear Models

- inputs
- outputs
- tests
- predictions
- assumptions

4 Mixed Models

- inputs
- outputs
- tests
- predictions
- assumptions
- advanced MM

Getting started with R

1 Introduction

2 Linear Models

- inputs
- **outputs**
- tests
- predictions
- assumptions

3 Generalised Linear Models

- inputs
- outputs
- tests
- predictions
- assumptions

4 Mixed Models

- inputs
- outputs
- tests
- predictions
- assumptions
- advanced MM

Getting started with R

1 Introduction

2 Linear Models

- inputs
- outputs
- **tests**
- predictions
- assumptions

3 Generalised Linear Models

- inputs
- outputs
- tests
- predictions
- assumptions

4 Mixed Models

- inputs
- outputs
- tests
- predictions
- assumptions
- advanced MM

Getting started with R

1 Introduction

2 Linear Models

- inputs
- outputs
- tests
- **predictions**
- assumptions

3 Generalised Linear Models

- inputs
- outputs
- tests
- predictions
- assumptions

4 Mixed Models

- inputs
- outputs
- tests
- predictions
- assumptions
- advanced MM

Getting started with R

1 Introduction

2 Linear Models

- inputs
- outputs
- tests
- predictions
- **assumptions**

3 Generalised Linear Models

- inputs
- outputs
- tests
- predictions
- assumptions

4 Mixed Models

- inputs
- outputs
- tests
- predictions
- assumptions
- advanced MM
